

DIAMOND AG RESEARCH, INC.
POSITION ANNOUNCEMENT FOR SUMMER-INTERN
RESEARCH TECHNICIAN

Job Title: Agricultural Research Technician, Summer-Intern

Job Location: Larned, KS

Job Description: Summer position with independent Agricultural Research company in Central Kansas conducting a wide variety of field efficacy, residue, and varietal experiments. The job will allow the intern to participate first-hand in field research techniques and observe developing technology.

Duties: The job requirement is to assist in all aspects of field experiments including, planting and establishing field experiments involving corn, sorghum, soybean, wheat, and other crops. Other duties include visual evaluations of test plots, various plant sampling procedures, and documentation of all work. Work will be primarily outdoors.

Education: Applicants should have completed at least one semester of college coursework, preferably in a biological sciences discipline, but other disciplines may apply as well.

Starting Date: Mid to late May 2010 till classes resume in fall 2011.

Interested persons may contact Pam Mitzner by e-mail or phone or send a curriculum vitae and an accompanying letter to: Diamond Ag Research, Inc., 855 K19 Hwy S., Larned, KS 67550. Telephone: 620-285-3380, diamondagpam@gbta.net
